A Successful Italian Family Story

Yes. We are a family Company.

Proudly an Italian family Company.

Ramcro successful story has a simple recipe: Italian Quality and Passion.

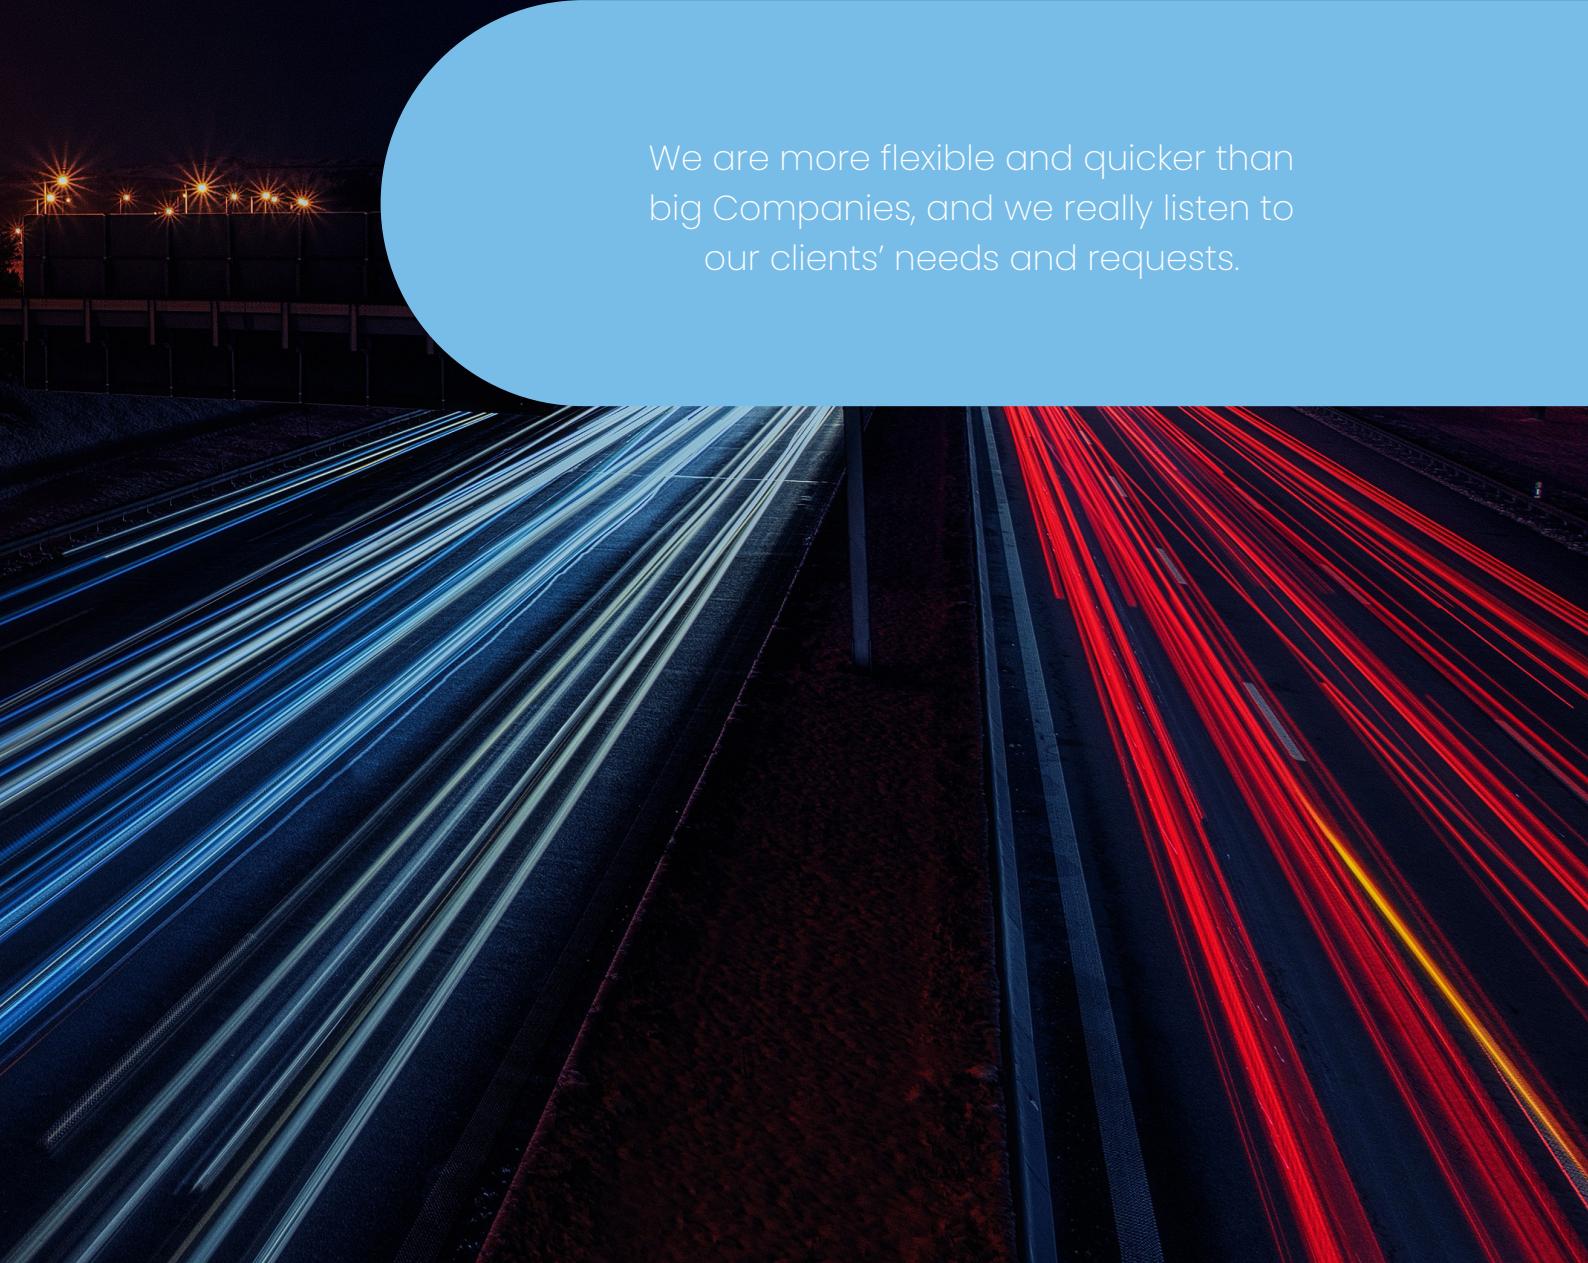

We believe our Cables meet the international Clients needs thanks to a correct

Value for Money: a great quality at a reasonable price.

Ramcro is not a giant Multinationals, but a medium size Company focused on Client satisfaction

We are more flexible and quicker than big Companies, and we really listen to our clients' needs and requests.

Brillan Company

People not Numbers

Founded in 1979, Ramcro today represents one of the Brands od Special Cables with the highest Value for Money. Famous all over the world as a company producing a complete range of cables studied and created in Ramcro Lab to grant top quality at the right price on the market.

RAMCRO IN THE WORLD

We produce "Special Cables" because they must be ready and efficient even for "Special Situation". Even in the extreme temperatures, even in the most dangerous situation, Ramcro cables are tested to perfectly work.

FOR US, QUALITY IS NOT THEORY.

We Study The Structures,
We Test The Quality Of
Each Cable

A long and precise list of tests are everyday carried out in our labs

Visit our Headquarter, and ask the number of tests a cable must pass every day.

Ramcro solves any kind of technical issue on special cables area, assuring your complete satisfaction thanks to our outstanding knowhow and superior Italian Quality, together with maximum flexibility and tay-lor-made solutions. Ramcro's approach improved the efficiency of hundreds of iconic Projects all over the world.

We Are Ready To The Most Difficult Challenges

TAYLOR MADE APPROACH

FIRST REQUEST

We select the most appropriate cables for the Client's need

OPEN DISCUSSION

We always want to propose solutions but also discuss with the Client with open mind to find the best solution.
The objective is common.

DELIVERY AND FEEDBACK

We appreciate the feedback by the client about our cables "in action". Post-sales is a precious feedback.

18%

Growth this year

"Our Company grows in a way we like: step by step, every year developing new ideas, every day finding something better than the day before. And in this continuous process, Client's feedback and cooperation is precious."

RAMCRO CABLE FAMILIES

OIL & GAS
Venus is the second planet from the Sun

FIRE & SECURITY
Despite being red, Mars is a cold place

FIBER OPTIC /HYBRID
It's the biggest planet in the Solar System

BMS
It's the biggest planet in the Solar System

INDUSTRIAL
Neptune is the farthest planet from the Sun

Brillan Mission

Ramcro is a family company highly focused and experienced in special cables. Our mission is continuously improving the value for money of our cables on the international market. Ramcro cables will represent a competitive alternative to multinational cables manufacturers, with high quality and service, but at a more competitive price.

Productive principles

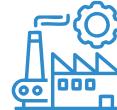

ENGINEERING

Ramcro Plant spends over 47% of the time in creating new cables, with specific characteristics

TESTING

Once developed the new cable, we test it in our laboratory, checking the efficiency of the cable in the specific use condition

PRODUCING

On the basis of test results we are in a position to produce the final cable.

Strategy

CABLES

a complete offer of specific cables

QUALITY

Ramcro Cables have the best Value for Money and Italian quality

SERVICE

always improving our sales approach and proximity to the customer

POST

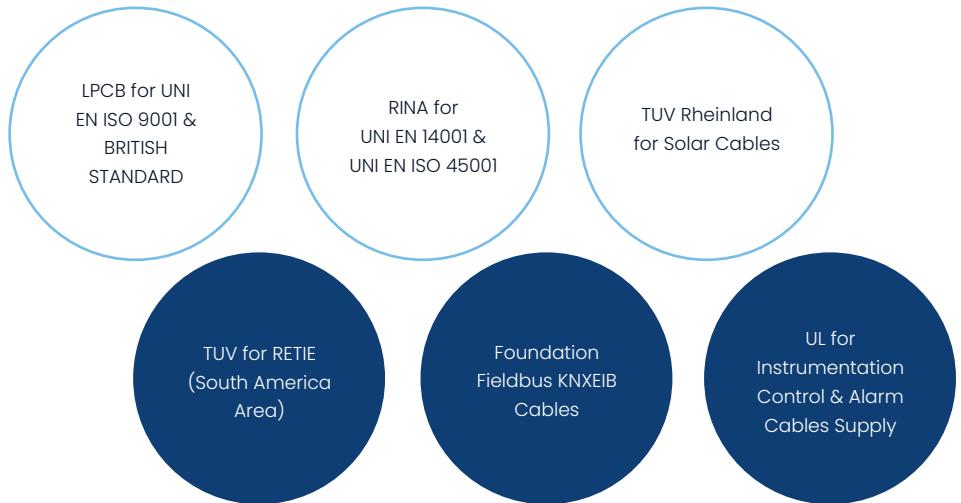

Improve cooperation with Customers also in applying new ideas and develop new cables

Brillan in The World

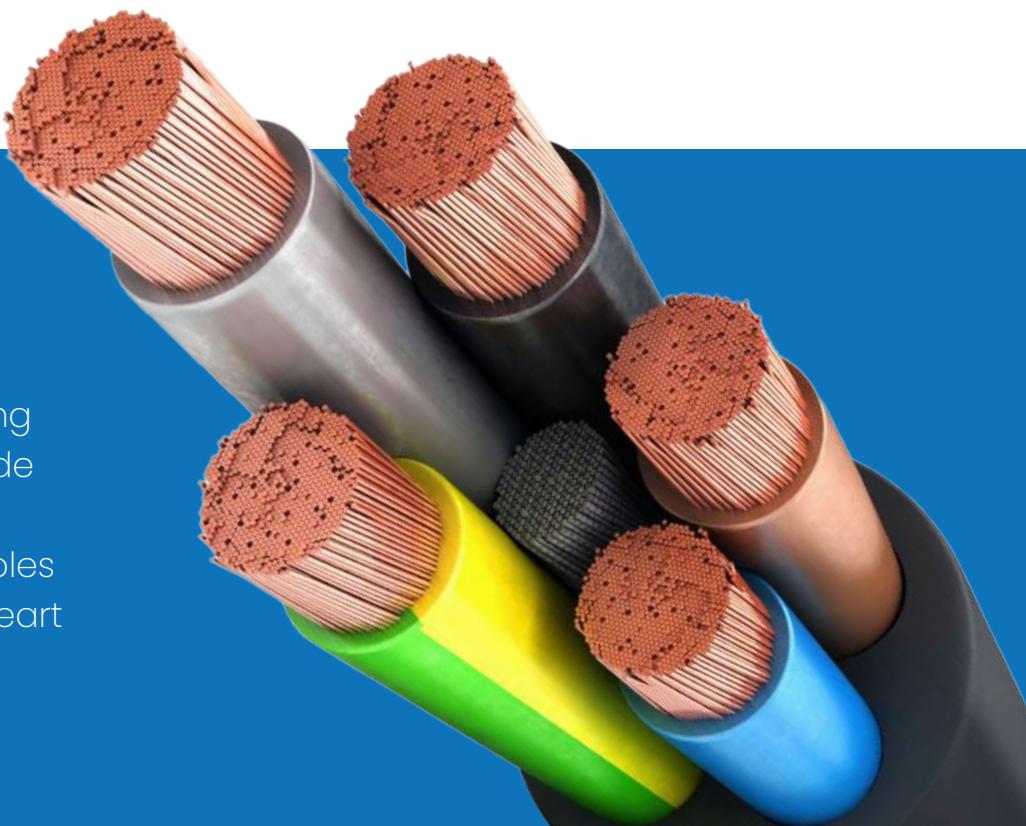

Certified

Brillan proudly holds the following certifications, underscoring our commitment to quality, safety, and reliability:

Our Cables live their long life out of the sight, inside walls, tunnels, iron and tubes. Ramcro cables are inside, in the very heart of great jobs.

In The Very Heart

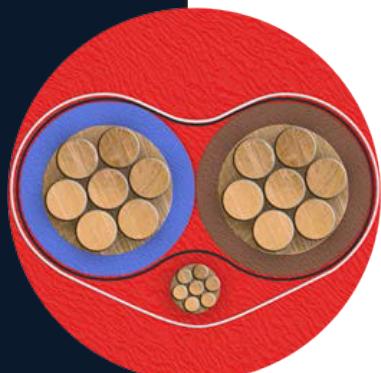

Our Cables live their long life out of the sight, inside walls, tunnels, iron and tubes. Ramcro cables are inside, in the very heart of great jobs.

We are more flexible and quicker than big Companies, and we really listen to our clients' needs and requests.

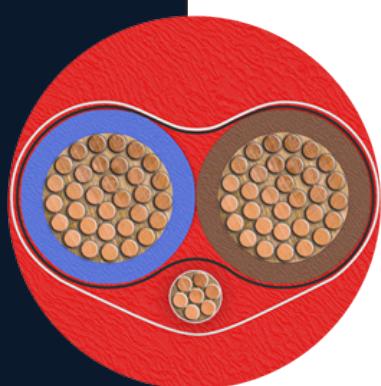

Brillan In The Very

AUDIO, VIDEO and CONTROL

Ramcro complete gamma for Audio, Video and Control.

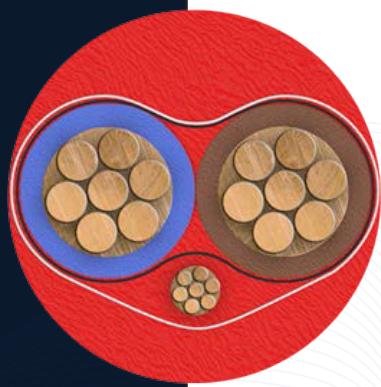

BMS

To provide the solutions for exchange and storage of information to keep efficient, on top performing, a complete gamma to solve every type of building installation.

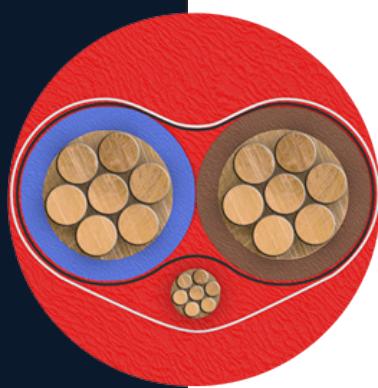

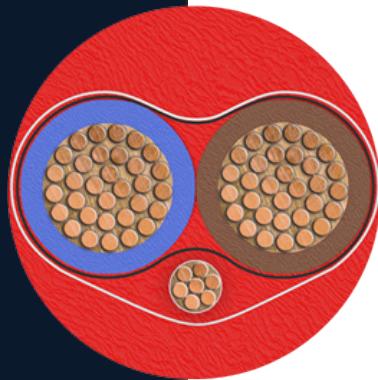

FIBER OPTICALS

The new technology of data transmission. Ramcro complete gamma showing the new solutions for connections and fast transmission.

FIRE RESISTANT

Used for fire resistant and circuit integrity. Essentially to prevent life from smoke and noxious fumes and where sensitive equipment maybe damage by forming gases.

INSTRUMENTS

Designed to connect electrical instrument circuits and provide communication services in and around process plant.

AUDIO, VIDEO AND CONTROL

Ramcro complete gamma for Audio, Video and Control.

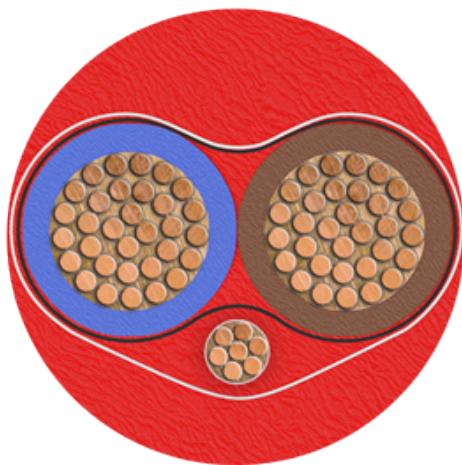

These cables are used for power supply and control signal transmission in mechanical engineering for tooling machinery, for production line and transport equipment, as well as industrial installation. They meet the requirements of the EEC directive concerning electromagnetic compatibility (EMC), and ensure interference-free transmission providing protection against external pulses

Cable Features: A complete assortment of special cables suited for alarm systems, audio and video systems, certified and granted as higher quality cables.

BMS

To provide the solutions for exchange and storage of information to keep efficient, on top and performing, a complete gamma to solve every type of building installation: Industrial use, CCTV, Intrusion and access, CATV Systems, Audio and video systems, Residential.

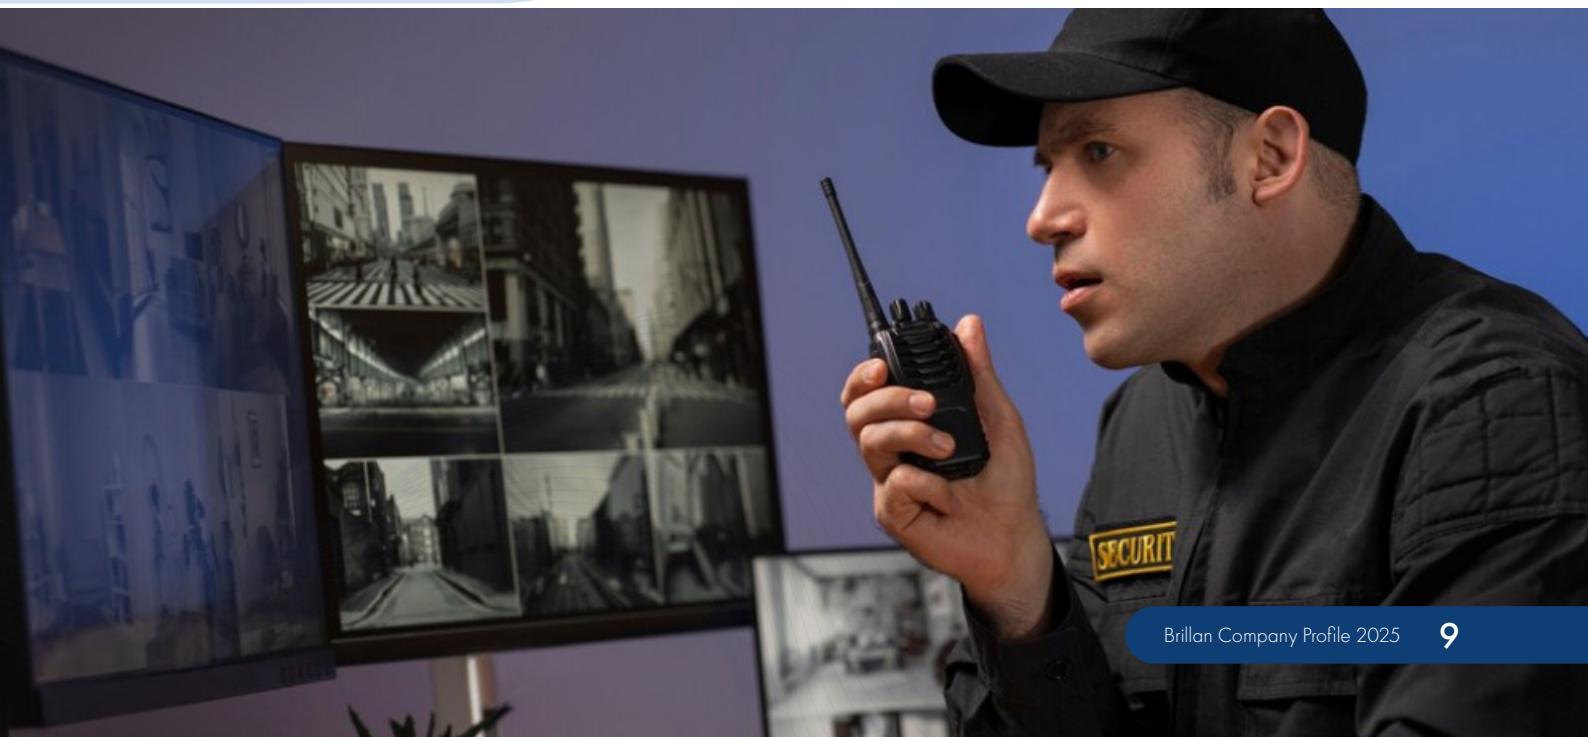

CABLE FEATURES:

Exchanging and storing information data in a performing and efficient way. The right special cables for building sector.

CHARACTERISTICS:

Referred mainly to building projects applications They allow to install and make operative all main device related to: Automation, Conditioning and Heating, Audio, Video and Signals transmission Industrial Sites.

POLYGRAB

Fire Resistant

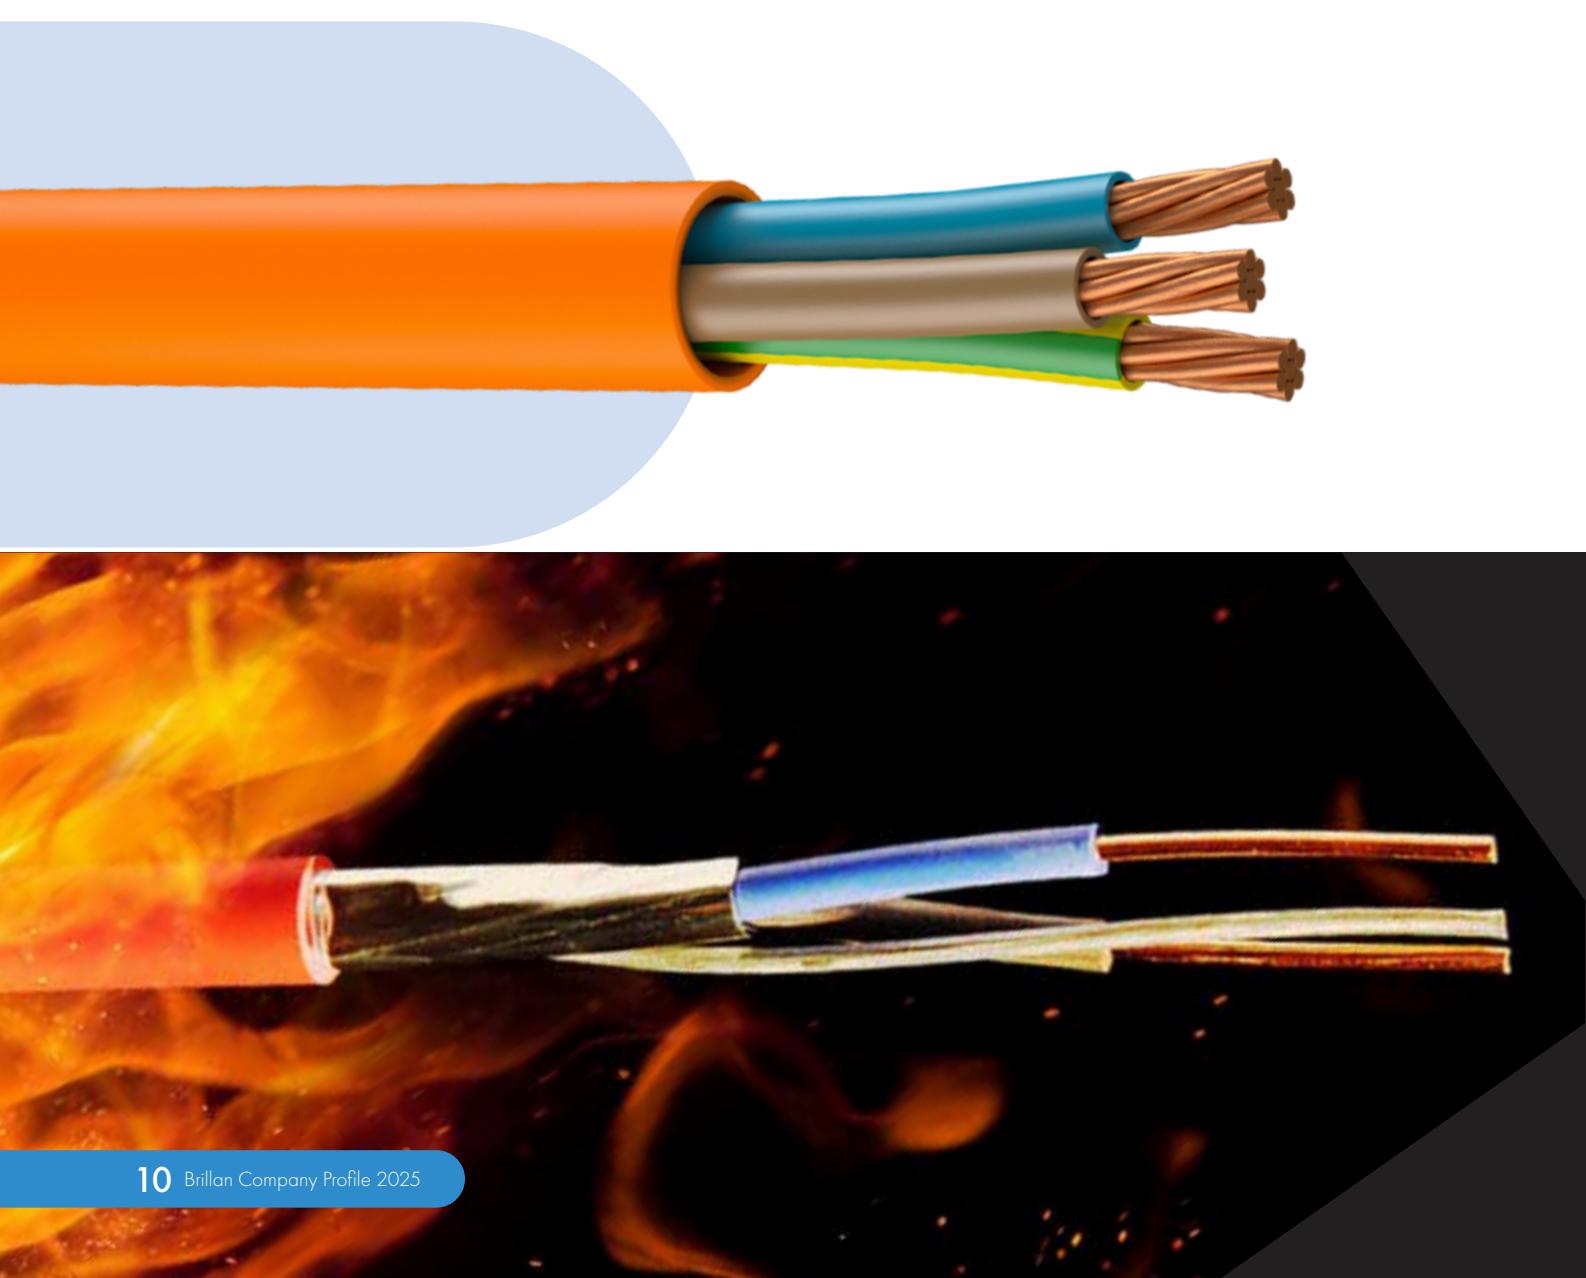

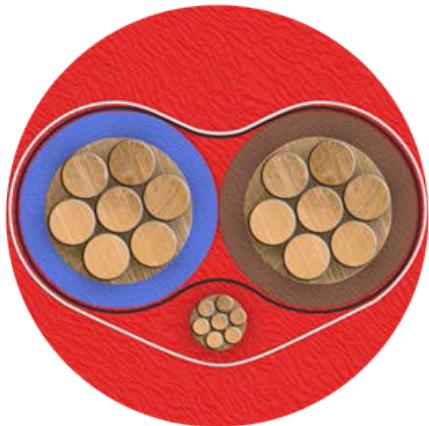

Used for fire resistant and circuit integrity. Essentially to prevent life from smoke and noxious fumes and where sensitive equipment maybe damage by forming gases.

CABLE FEATURES:

In case of fire risk or to maintain circuits integrity, the Ramcro Fire special cables prevent smoke risks and other collateral problems to sensitive equipments, avoiding damage from gases. Ramcro Fire cables are produced according with all m 'or international standards.

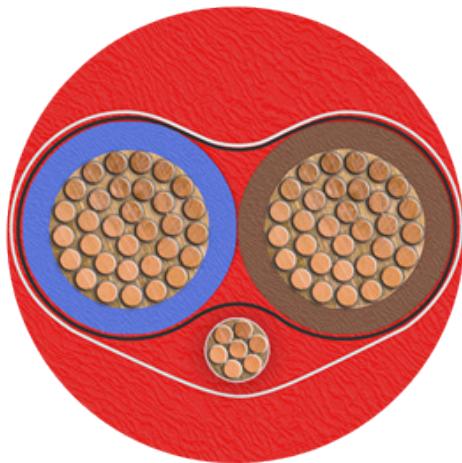

FIRE PERFORMANCE CLASSIFICATION:

- Basic Type: IEC 60331-21
- Standard Type: BS 6387 Cat. C-W-Z and BS 7629
- Enhanced Type: EN 50200 PHI20 - BS 8434-2

Oil & Gas

Cables are designed to carry communication and control signals in a variety of installation types including those found in the petrochemical industry.

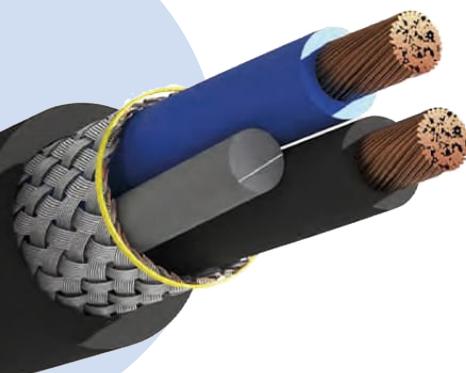

INSTRUMENTS

Designed to connect electrical instrument circuits and provide communication services in and around process plant.

CHARACTERISTICS:

Cables are designed to carry communication and control signals in a variety of installation types including those found in the petrochemical industry. The signals can be of analogue, data or voice type and from a variety of transducers such as pressure, proximity or microphone.

Ramcro S.p.A. has always been committed to the research and supply of products and services with the least possible environmental impact throughout their life cycle and carefully evaluates all aspects of the production chain, from design to production and up to disposal methods.
